

It takes a community to heal a brain injury.

For over a decade, NLE has been a proud member of this essential caring community, BIAWA. We are honored to support families, healthcare teams and caregivers. Most of all, we are privileged to support those who do the very hardest work, the survivors themselves.

Defending your dignity. Protecting your peace of mind.

Attorneys for personal injury, long-term disability denial, and medical malpractice.

HONORARY CHAIR

NLE

While other community members focus on medical care and recovery, Nelson Langer Engle makes sure that the patient's short-term and long-term needs are clearly understood, and then works to secure the necessary resources to meet those needs. This is our life's work, and we are lucky to be able to do it within a community as remarkable as BIAWA.

Fred Langer, Partner

With his background as a medical professional prior to becoming an attorney, Fred brings a unique set of skills to the legal team at NLE Law. Fred's connections in the medical community help our clients get the best possible care, and his clinical knowledge is often the key to winning complex disability and catastrophic injury cases.

Aaron Engle, Partner

Aaron focuses his practice on fighting for those who have wrongfully been denied disability and other insurance benefits. He also stands up for people who have been harmed by the negligence of people, corporations, and governments. Aaron is dedicated to telling your story with honesty and passion.

Mike Nelson, Of Counsel

Mike has been practicing law in the Puget Sound area for over 35 years, emphasizing traumatic brain injury, catastrophic injury and insurance bad faith claims. A brain injury survivor himself, Mike has dedicated his career to helping victims of brain injury and other long-term, disabling injuries.
